About ACE

We are a registered charity based in the heart of Somerton, Somerset. Art Care Education(ACE) was founded in 2016.

Our primary aims are to provide art and creative activity to inspire, empower and enable people to develop and grow, and to preserve the Old Town Hall as an exhibition space for the benefit of the local community.

ACEarts

ACEarts is the gallery space founded by the charity ACE, which opened its doors in the historic Old Town Hall in 2017. The diverse and inspiring exhibition programme forms the basis of our community engagement art projects working with community groups, adults with learning differences, local schools and elders in care settings.

We are proud to:

- give a warm welcome to 20,000+ visitors per year
- hold 10+ varied and inspiring exhibitions per year
- showcase over 60 local artists work in our gallery shop
- support emerging artists at the beginning of their career
- mentor artists to enable them to hold their first solo exhibition
- deliver high quality creative workshops
- provide creative sessions in schools and community spaces
- promote positive mental health through free creative wellbeing sessions.

Participant comments

- There is no way I could have afforded these days without them being funded – a shame in view of the benefits to attending. You mentioned you might be putting in a bid for a longer programme of funded courses – I do hope it is successful
- Jenny’s tutoring was excellent – she had something positive to say about everyone’s contribution; made good suggestions whilst allowing us the freedom to make our own decisions, focus on our particular interests and work at our own speed
- Being able to have the opportunity to share the experience with like minded individuals
- Working alongside/in the exhibition space which at first I wasn’t sure of. Visitors to the exhibition were obviously interested in what was going on, came over to the group and joined in discussions and asked questions. I think you said a few then enquired about the classes. It was good for us too to be able to move in and out of the exhibition space – drawing inspiration from it and reinforcing the notion that art is not something ‘separate’ from life
- You looked after us all so well – taking time out of your schedule to make regular appearances to show an interest in what we were doing, make tea and coffee and even share round choc ices!
